

What's an Accusump?

An Accusump is an oil reservoir that is connected to the engines oiling system via a single line. It is designed to deliver pressurized oil to an engine before starting to eliminate dry start scuffing and also to discharge its reservoir of oil automatically during low oil pressure surges in racing conditions. Once the engine reaches normal oil pressure, oil is pumped back into the Accusump until it is required again. Great for circuit racing, speedway, drag racing, ski race boats or use just as a pre-oiler for that streeter that only gets driven once in a while.

**The complete range of Accusump products
are in stock now at Precision.**

CN24006	CANTON ACCUSUMP 3 QT NO VALVE	
CN24016	CANTON ACCUSUMP 3 QT NO VALVE	HIGH PRESSURE
CN24026	CANTON ACCUSUMP 2 QT NO VALVE	
CN24046	CANTON ACCUSUMP 1 QT NO VALVE	
CN24126	CANTON MARINE ACCUSUMP 2 QT	COMPLETE KIT
CN24146	CANTON MARINE ACCUSUMP 1 QT	COMPLETE KIT
CN24150	CANTON ACCUSUMP TURBO OILER	
CN24260	CANTON ACCUSUMP MANUAL BALL VALVE	
CN24506	CANTON ACTUATOR CABLE KIT	6FT
CN24270	CANTON ACCUSUMP ELECTRIC VALVE	
CN24271	CANTON ACCUSUMP EPC VALVE	20-25 PSI
CN24271K	CANTON EPC UPGRADE KIT	20-25 PSI
CN24273	CANTON ACCUSUMP EPC VALVE	35-40 PSI
CN24273K	CANTON EPC UPGRADE KIT	35-40 PSI
CN24275K	CANTON EPC UPGRADE KIT	55-60 PSI
CN24280	CANTON CHECK VALVE	
CN24500	CANTON ACCUSUMP GAUGE	0-160PSI
CN24200	CANTON ACCUSUMP MOUNTING CLAMP	SUITS 2 & 3 QT
CN24210	CANTON BILLET MOUNTING CLAMPS	SUITS 2-3 QT ACCUSUMPS
CN24240	CANTON ACCUSUMP MOUNTING CLAMP	SUITS 1 QT
CN24800	CANTON ACCUSUMP INSTALL KIT	UNIVERSAL T TYPE
