

Iron Eagle & Alloy Race Series Chevy Blocks

Dart Iron Eagle & Alloy Race Series blocks
are the best choice for
your HIGH PERFORMANCE small block Chevy.

Check out their features

- Steel 4-bolt main caps resist bearing bore distortion
- Priority main oiling system directs oil to main bearings first.
- Relocated oil pan rails spread .400" per side increases crank/rod clearance.
- Cam to crank centreline is raised to 4.912" to increase crank/rod clearance.
- Big block Chev cam bearings incorporated to increase camshaft strength and reduce twisting with cam driven pumps (optional on Iron Eagle).
- Machined on state-of-the-art CNC equipment & quality checked.
