

Race Series Alloy

Ford Blocks

**Dart Race Series aluminium blocks
are the best choice for**
your **HIGH PERFORMANCE** small block Ford.

Check out their features

- Cast from virgin 355-T6 aerospace alloy for superior strength and integrity.
- Ductile iron sleeves and extra thick walls prevent cracking and produce excellent ring seal.
- Extra thick decks and reinforced head bolt bosses prevent head gasket leaks.
- Increased coolant flow around cylinders helps prevent detonation.
- Steel 4 bolt main bearing caps fitted standard. Three centre caps have splayed outer bolts for maximum strength.
- Upgraded low restriction priority main oiling system.
- Race series blocks include freeze plugs, coated cam bearings and dowels.
- Machined on state-of-the-art CNC equipment & quality checked.
