

PRO 1 Alloy

Chevy & Windsor Cylinder Heads

**Dart Pro 1 aluminium cylinder heads
are the best choice for**

your HIGH PERFORMANCE small block Chevy or Ford Windsor.

Check out these features

- High velocity & flow 180cc 200cc 215cc or 230cc intake runners (Chevy) & 170cc or 195cc (Windsor) meet the needs of high performance engines.
- Choice of 64cc or 72cc (Chevy) or 62cc (Windsor) blended heart shaped chambers for a more controlled combustion.
- Proprietary Speed Flow™ ports offer awesome airflow “out of the box”.
- Multi-angle intake seats & radiused exhaust seats dramatically increase airflow.
- Manganese bronze intake & exhaust guides STD.
- You’ll never find heli-coils in a Dart Pro 1 alloy head. They’re made from pure virgin C355-T6 aluminium alloy heat treated to T6 specifications which is easily tough enough to resist stripping without thread inserts.
- Perfect replacement for Pro Alloy Lightning cylinder heads.
- 100% pressure and quality checked.
